4. NOTABLE FEATURES, HISTORICAL SIGNIFICANCE AND DESCRIPTION OPEN TO PUBLIC no <p>The Brickend House consists of a 3 bay long frame 2-story part and a 1-bay long, 1 1/2 story frame part with a brick end. The smaller portion appears to be the older of the two, though it appears to date from the late 18th Century. (The larger part appears to be of the 1840-50 period). The brick end is laid in flemish bond and has a door on the 1st story and two small gable windows (one blocked up, evidently, where a later addition was built). An 'A'-roof dormer, with 6/6 sash, is on each side of the steep 'A' roof of the 1 1/2 story part. 9/9 sash are used on the 1st story, which the later portion has 9/6 sash on 1st story and 6/6 sash on 2nd. Other than the brick gable, the remainder of the house is supported on brick piers. A large exterior chimney is built on the gable of the later portion of the house. One end-board remains on the cornice of the earlier part.</p> <p>Its condition is poor and it is tenanted.</p>
